BIOGRAPHY

When it comes to music there isn't anything Andreena Miller is afraid of. Also known as The BLK LT\$ (pronounced The Black Lotus) the Toronto born powerhouse has collaborated with some of the industry's brightest stars such as Drake, DMX, Future & French Montana . The singer/songwriter has worked with Grammy award winning producers Matthew "Boi 1Da" Samuels , Noah "40" Shebib, Hit Boy, Rodney "DarkChild" Jerkins, and the legendary duo Jimmy Jam and Terry Lewis to name a few she states she feels like she's "just begun to scratch the surface".

The raspy quick spoken pianist is a writer for Universal Music Publishing Group (NYC) who has had her music placed in feature films, TV shows and commercials. Being able to contort her abilities she has landed several Juno Award nominations and is currently producing music for other artist as well as scoring documentaries and directing music videos under her BLK LT\$ Media Group imprint.

Over time Andreena's sound has evolved to what she calls "BLK Soul". Aiming to shed light on the dark & quirky side of her personality. With raw lyrics, & sensual melodies, she finds a way to marry bone rattling bass lines and head knocking drum beats to sonically hypnotic, futuristic yet nostalgic instrumentation.

Currently living in Los Angeles California The BLK LT\$ is writing and producing for with many upcoming artist as well as a series of self written and produced EP's slated for mid and late 2023 release. She calls these her 'odes to creative freedom'. In 2022 she executive produced AstroKidJay (ListentotheKids/Geffen) debut EP "Rose Out The Mud". She also co-produced the viral hit "Involved" by Coi Leray. The singer/rapper is currently working on a joint project with The RZA of the Wu-Tang Clan and Dj Scratch for Hip Hop 50th Anniversary as well as her debut EP "Petals of Metal" produced by herself along side Yonatan Watts (Champagne Therapy/Position Music) and Supah Mario (Sony Publishing) Her self produced/written latest single "Last One" debuts on May 26th
